WILDLAND FIRE MANAGEMENT SEMINAR

Wednesday, April 25, 1984 6:30 P.M. - 10:00 P.M.

Civic Center Library. 23519 W. Civic Center Way, Malibu, Calif.

AGENDA

6:30 P.M. FIRE HISTORY DISPLAY

Fire history maps, fire frequency maps and newspaper articles on all major fires in the Santa Monica Mountains will be displayed along with fire-related public safety literature and research.

7:30 P.M. Opening remarks by NFES President Louis E. Hill

7:35 P.M. Introduction of agency representatives, homeowner association representatives and keynote speaker by director Carlos P. Baker, Jr.

7:40 P.M. FIRE HISTORY OF THE SANTA MONICA MOUNTAINS

Fire history, fire frequency, and fire predictions will be discussed in relation to vegetation types and age classes, climate, topography, and fire fighting techniques.

8:10 P.M. Question & Answer Period

8:20 P.M. WILDFIRE BEHAVIOR AND MANAGEMENT

The audience will travel "into the field and behind the fire lines" to examine fire behavior and fire effects. Vegetation changes caused by fire and man will also be studied.

8:50 P.M. Question & Answer Period

9:00 P.M. SAVING HOMES DURING WILDLAND FIRES

Prefire, fire, and postfire photos will be used to illustrate how and why some homes are lost during wildfires; why others are saved. Innovative suggestions will be offered on saving homes from wildfires.

9:20 P.M. Question & Answer Period

9:30 P.M. BRUSH CLEARANCE ORDINANCES

What, how, when to clear? What, how, when to replant?

9:50 P.M. Question & Answer Period

10:00 P.M. Audience comments, suggestions, recommendations

*Wildland resource scientist Dr. Klaus Radtke will be the keynote speaker for the mini slide series.

*Free public safety literature will be distributed.
